

PILIKULA BIOLOGICAL PARK

INTERNATIONAL TIGER DAY 29TH JULY 2022

International Tiger Day is celebrated across the globe to raise awareness for tiger conservation. Tigers are on the brink of extinction due to illegal wildlife trade and activities such as poaching and most of their natural habitats are fragmented due to urbanisation and human encroachment. India has the largest tiger population in the wild amongst all the countries in the world, and is steadily trying to revive tiger populations in both wild and captivity with an effort to protect their natural habitats.

Pilikula Biological Park has constantly put efforts throughout the years to increase tiger population. Pilikula biological park is a home to a genetically diverse and strong population of 12 tigers, including 1 white tigress.

On the occasion of TIGER DAY 2022, PILIKULA BIOLOGICAL PARK is celebrating these apex species and here are the details of the events. We would be delighted to witness your active participation.

EVENT	CATEGORY	DATE	LINK
Collage making competition. THEME : TIGER CONSERVATION	i. 6 th to 8 th STD ii. 9 TH TO 12 TH STD iii. OPEN CATEGORY 18 YEARS AND ABOVE	Last date for entry – 29 th July 2022	https://forms.gle/W4cZ73cS5BZb8duw8
